

Categorical Exclusion Determination

Bonneville Power Administration
Department of Energy

Proposed Action: King County Parcel Conservation Easement Acquisition

Project Manager: Wendy Jansen – TERR-Olympia

Location: King County, Washington

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

Description of the Proposed Action: BPA proposes to acquire a conservation easement to be granted by the Washington Department of Natural Resources (WDNR) on 40 acres in King County, Washington. BPA purchased the parcel in 2002 as mitigation for the Kangley-Echo Lake transmission line project. BPA is transferring ownership of the parcel to WDNR as mitigation for the Central Ferry-Lower Monumental transmission line project. When initially purchased by BPA, BPA agreed that if any part of the parcel was sold, the buyer would grant BPA a conservation easement. To comply with this requirement, WDNR is granting BPA a conservation easement upon completion of the property transfer. Landownership would transfer to WDNR, but the land use would remain unchanged. The 40-acre parcel would be managed by WDNR in the same manner as described in the Raging River North and West Forest Stewardship Plan and WDNR's Habitat Conservation Plan.

Findings: In accordance with Section 1021.410(b) of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, Jul. 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

- (1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
- (2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
- (3) has not been segmented to meet the definition of a categorical exclusion.

Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment: Environmental Checklist

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: King County Parcel Conservation Easement Acquisition

Project Site Description

The 40-acre parcel (part of a larger BPA-owned parcel) is forested with moderate to somewhat steep slopes throughout. The parcel is bordered on the east by WDNR's Raging River State Forest and to the south and west by the City of Seattle's Cedar River Watershed. The area is closed to the public and there are no structures and few roads on the parcel.

Evaluation of Potential Impacts to Environmental Resources

Environmental Resource Impacts	No Potential for Significance	No Potential for Significance, with Conditions
1. Historic and Cultural Resources	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> BPA has determined that no historic properties would be affected as a result of acquiring the conservation easement from WDNR. It is expected that all activities conducted on the parcel would comply with the Raging River North and West Forest Stewardship Plan and WDNR's Habitat Conservation Plan.		
2. Geology and Soils	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		
3. Plants (including Federal/state special-status species and habitats)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		
4. Wildlife (including Federal/state special-status species and habitats)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		
5. Water Bodies, Floodplains, and Fish (including Federal/state special-status species, ESUs, and habitats)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		
6. Wetlands	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		
7. Groundwater and Aquifers	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		
8. Land Use and Specially-Designated Areas	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> See explanation for #1 above.		

9. **Visual Quality**

Explanation: See explanation for #1 above.

10. **Air Quality**

Explanation: See explanation for #1 above.

11. **Noise**

Explanation: See explanation for #1 above.

12. **Human Health and Safety**

Explanation: See explanation for #1 above.

Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

Explanation, if necessary:

- Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

Explanation, if necessary:

- Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation, if necessary:

- Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation, if necessary:

Landowner Notification, Involvement, or Coordination

Description: None required.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to any environmentally sensitive resource.
